July 19, 1937

Hon. P. H. Humphreys
State Engineer
State Capitol Building,
Salt Lake City, Utah.

Dear Mr. Humphreys:

In the Decree of Distribution of the waters of Coal Creek the Cedar City South & West Field Reservoir & Irrigation was granted a point of diversion described as follows:

"Said water to be diverted from Coal Creek and each, either, or both of the following points of diversion 1325 feet South and 1500 feet East of the NW corner of Section 13, Township 36 South, Range 11 West in to the City and West Field ditch, or 185 feet north of center of Section 13, Township 36, South, Range 11 West into the South Field Ditch and used for the irrigation of 900 acres of land described as follows, etc."

? I would greatly appreciate information whether or not since the entry of this decree and the adjudication of this point of diversion any application has been filed on behalf of Cedar City South & West Field Reservoir & Irrigation Company to change the point of diversion of the ditch.

Also the Cedar City Milling Company apparently has a right to take water from Coal Creek for power purposes but I do not have the amount of water which they may take or the point of diversion.

I would appreciate if you could furnish me with the information as to the amount of water which the Cedar City Milling Company takes for power purposes, also a description of the point of diversion from which said water is taken from Coal Creek in Iron County, Utah.

9.00 S.F. (Power)
Jan 1. to Dec. 31

Also I would appreciate information whether or not any filing has been made since the entry of the decree as to any change of place of diversion or amount of water used by Cedar City Milling Company under its adjudicated rights.

I wish you would advise me as to the charges for this service and I will send check for the same immediately.

I wish to thank you in advance for your trouble in this matter, and beg to remain

Yours very truly,

Ruby Day
